

GPS Treasure Hunts with Team Challenge Company

Team Challenge Company is proud to offer your team the best in 'Gamification' as part of a unique outdoor team building experience using state-of-the-art GPS technology.

These events are specifically designed to develop and challenge your employees and clients in a truly unique, creative and memorable way. To experience a complimentary sample of a treasure trail contact one of our team today.

Teams; use the GPS tablet to navigate sequences of virtually triggered checkpoints.

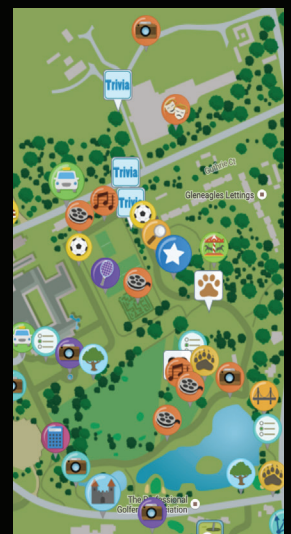

Success; judged by either the programme, a live trail controller or an in-situ trail marshal.

Challenges; include a mix of personalised questions, photo and video missions, or even team building tasks.

Aims; to score as many points as possible by successfully completing checkpoints.

Other Unique Features include:

- Choice of navigation between map and arrow options. Strategic route planning.
- Challenges between checkpoints to maintain engagement.
- Live interaction with trail controller.
- Ability to view location of other teams.
- Custom maps create virtual worlds and playgrounds.
- Measure change to create employee engagement.
- Personalised with your logo and branding.
